Trey Stevens Elected to the American Society of Appraisers Business Valuation Committee

Chicago - June 2009 – Trey Stevens, Washington, DC, office director for Willamette Management Associates, was recently elected to serve on the American Society of Appraisers (ASA) Business Valuation Committee.

The Business Valuation Committee directs the administrative functions of the business valuation discipline within the ASA, the oldest and only major appraisal organization representing all of the disciplines of appraisal specialists. The Committee develops and implements policies, procedures, and professional standards, in conjunction with the ASA Board of Governors, for the members within the business valuation discipline. The 18 members of the Committee are elected by the more than 2,000 business valuation members within the ASA and serve staggered three-year terms.

“We are very happy that Trey will be serving on the Business Valuation (BV) Committee,” said John Barton of Brandywine Valuation Consultants, LLC, and chair of the committee. “His past efforts in BV course development have been invaluable in keeping our educational program state-of-the-art and we look forward to tapping his unique perspective as we plan the future of the business valuation discipline.”

“The ASA is one of the premier business valuation organizations in the financial profession,” said Trey Stevens. “I look forward to working with the other members of the BV Committee to maintain the high standards of professionalism exhibited by members of the ASA who are active in business valuation.”

About Willamette Management Associates

Founded in 1969, Willamette Management Associates is a valuation consulting, economic analysis, and financial advisory services firm.
